

COMPANY PROFILE

the **Future of
Plastic Bottling** in Botswana!

A large warehouse filled with stacks of bottled water. The stacks are arranged in rows, with the top of the stacks reaching towards the ceiling. The water bottles are clear plastic, and the stacks are wrapped in clear plastic. The background shows a dark ceiling and some industrial equipment.

we offer **diverse, high-quality bottling solutions** for various industries.

Welcome to Gop'Bottles

The Future of Plastic Bottling in Botswana!

At Gop'Bottles, we believe in creating a sustainable future while keeping Botswana at the forefront of PET plastic bottle manufacturing. Established in 2019, we've been redefining industry standards with our innovative approach, high-quality products, and commitment to sustainability.

We specialize in producing 330ml, 500ml, 750ml, 1.5L and 2L PET plastic bottles (both clear and blue), and are continuously expanding our range to offer diverse, high-quality bottling solutions for various industries.

OUR JOURNEY

From Vision To Reality

Gop'Bottles is the brainchild of our visionary Founder & CEO, Mandy Otukile. While working in the water purification industry, she noticed how companies heavily relied on imported plastic bottles and caps. Seeing a huge gap in the market, she took the bold step of seeking funding through the Ministry of Youth, Sports, and Culture (MYSC), and Gop'Bottles was born!

Beyond business, our mission is to empower Botswana – economically, socially, and environmentally. We are committed to local job creation, sustainability, and providing businesses with cost-effective, high-quality packaging solutions.

Mission:

Deliver superior quality PET plastic bottles at the most competitive prices while maintaining our commitment to customer satisfaction and sustainability.

Vision:

Become Botswana's leading locally-owned plastic bottling company Promote eco-friendly, recyclable PET materials Build strategic alliances to expand nationwide distribution Create job opportunities for young professionals across Botswana

our
mission &
vision

Our Core Values

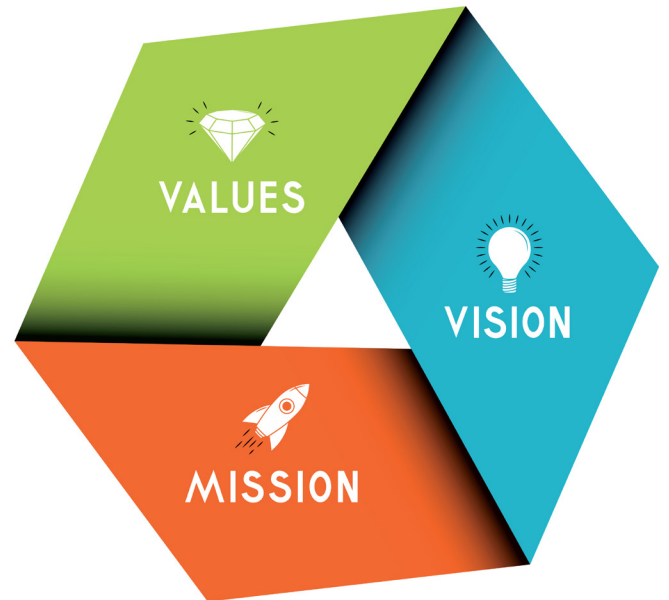

Sustainability – Our commitment to an eco-friendly future
